Dear Deputy O'Dowd

I can confirm that, whilst we haven't received an official response from the Department, I have discussed the draft appraisal for Julianstown with them. They are aware of the current traffic situation and in the course of our discussion they highlighted a number of factors that may be relevant considerations such as the range of potential options (including public transport options) and the possible impacts of traffic redistribution on the M1 and wider road network. As I understand it they are still considering the report and they will respond formally in due course.

Please contact me if you require any further information.

Regards

N Whyatt
